

Christian Abbot

562-551-4719 | coabbot@cpp.edu | cabbot.dev | linkedin.com/in/tivvn | github.com/tivnn

Software Engineer building AI-powered tools, APIs, and interactive web systems

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL

Technologies: React, Three.js, REST APIs, Generative AI APIs

Tools: Git, GitHub, VS Code, Visual Studio

Concepts: OOP, Data Structures, API Integration, Prompt Engineering

EDUCATION

California State Polytechnic University, Pomona

Pomona, CA

B.S. Computer Science, Minor in AI

Expected 2028

Pasadena City College

Pasadena, CA

A.S. Applied Science & Natural Science

2026

EXPERIENCE

Election Data Integrity Analyst

Jan 2026 – Present

FPM Petition Management

West Covina, CA

- Processed high-volume voter datasets with strict accuracy requirements
- Identified and corrected inconsistencies in structured data
- Maintained data integrity under compliance and confidentiality constraints

Northrop Grumman STEM Internship

Sep 2024 – Jan 2025

STEM Intern & Team Lead

Rio Hondo College, CA

- Led team of 5 interns to prototype AI-driven workflow tools
- Built and tested AI solutions for real-world use cases
- Presented AI integration strategies to engineering teams
- Designed Python-based concept for internal automation workflows

Geek Squad Agent & Sales Advisor

Sep 2023 – Jan 2026

Best Buy

CA

- Diagnosed and resolved hardware/software issues using debugging workflows
- Translated technical problems into clear solutions for users
- Managed high-volume support tasks in fast-paced environments

PROJECTS

Developer Portfolio Website

2026

React, Three.js, Tailwind CSS

- Built interactive portfolio with animated 3D scenes and custom UI
- Implemented responsive layout and performance-focused rendering
- Deployed with custom domain and CI/CD via Netlify

AI Application Prototypes

Ongoing

Python, REST APIs, Generative AI APIs

- Built AI-powered applications using external APIs
- Designed prompt pipelines to improve output accuracy
- Integrated APIs into functional application workflows

Interactive Web Application

2025

React, JavaScript, HTML/CSS

- Developed React app with modular component architecture
- Implemented responsive UI for cross-device usability
- Deployed production build using GitHub Pages
